Special times make lasting memories

Years ago, people gathered at the lawn swing to converse, laugh and relax.

In 1987, the magical beauty and simplicity of the lawn swing was recaptured in the *WhisperGLIDE*®. This swing brings together family and friends of all ages in a social and therapeutic activity that transcends time and lifts the human spirit.

Each time you sit in a *WhisperGLIDE*® you are impressed with its sheltering, feel-at-home canopy and whisper-quiet gliding action.

Pushing—by using either hands on the push-pull bar or feet on the floor—gently propels the swing.

A Wheelchair Accessible Swing creates a new opportunity for social interaction.

WhisperGLIDE® owners are delighted with this swing’s unique design, high-quality materials, extraordinary workmanship and lasting performance. Most importantly, they recognize that it’s not just a swing, but a bridge to special moments and lasting memories.
